HIGHWAY MEET OF OFFICIALS ON YESTERDAY

CITY AND COUNTY TALK WITH STATE ENGINEERS.

Plans Proposed to Widen Two Blocks on No. 9 and Complete to Happy—No Official Action.

A conference was held yesterday afternoon between the County Commissioners, City Commissioners and a number of citizens of Canyon with a view of attempting to reach some decision, if possible, whereby paving might start on highway No. 9, running south of the city, and possibly on No. 33, running west. P. S. Bailey and M. J. VanLondon, representing the state highway commission were present and stated the situation as is existed.

Judge S. B. Orton stated that the county had about $50,000 remaining of the bond issue for highway purposes and that the state and federal governments had allowed the county $100,000 for these projects as soon as the work in Canyon could be settled. The federal government had demanded that the city of Canyon widen the paving on No. 99 to 50 feet, beginning at the viaduct and extending to the south boundary of the city. This would be done with a curb on the outside of the 18 foot paving, and gravel used to finish the intervening space. The city had agreed to do this at such time as it had the money.

Mayor R. A. Bellah stated that the city did not have the money, as tax payments had been far below the normal expectation, and it was unwise to call a bond issue at the present time for this purpose. Mayor Bellah stated that the city did not seek to avoid its obligation but asked that the city be given a little more time in which to do this. Mr. Van London stated that the federal government had made this one of the demands before it would enter into the paving within the city limits, and did not believe that the federal government would approve a contract until the city had done its part.

Harvey Cash pointed out the fact that the city commission had agreed to all the demands, but has stated to the department that it would be impossible to set a definite date owing to conditions. He believed that the city had done everything that it could do under the circumstances, owing to the fact that it could no longer issue warrants for this purpose. If the people would vote $10,000 bonds for this purpose, the work could be done.

C. N. Harrison asked why the necessity of widening this street when the department had reduced the traffic 60 percent by running No. 33 north of the rail road, and why it was necessary in Canyon to have a 50 foot pavement when the highway is 18 foot wide in Amarillo and at the entrance of other towns. Mr. Harrison also raised the question of the necessity of completing the highway south to the county line if the city should enter into this agreement to spend that amount of money to widen the highway.

The question of whether or not the work would be done either to the south alone, or in both directions was left up to the commissioners court by the representatives of the state. They believed it a good policy to complete one highway at a time, rather than pave a part of both.

Clyde W. Warwick pointed out the fact that only two blocks on No. 9 had any improvements in the way of filling stations, and that if the city could take care of the two blocks, north and south of Fourth avenue, that perhaps the federal government would give the city time on the balance. This would cost about $3,000. Mayor Bellah stated that at the present time the city did not have that much money, but believed that at the end of six months about the time the contracts would be completed, the city could do the work.

Judge Orton stated that the county was anxious to get the paving under way as he believed a better bid could be secured while both labor and material were so cheap. The type of paving proposed would cost about $10,000 per mile, and would take the paving about 7 1-2 miles in each direction from Canyon.

The city commission and commissioners court were asked by Mr. Van London to submit a proposal on the widening of the blocks, if the city ascertained that it could finance that much of the project at the present time, and this would be transmitted to the department at Austin for consideration.

Wheat Planting With Out Treating Will Produce Smut Crop

Many farmers are seeding wheat since the recent rains. It is especially important that the seed for this late seeding be treated for smut. It is a well known fact that the late seeded wheat is more likely to be smutty than the early seeding. The reason for this is simple. The smut spores germinate readily at a low temperature. When the soil is a little cool for quick germination of the wheat the smut will start growing quickly and the wheat does not have a chance to get ahead of the smut. Of course badly infested seed wheat is likely to produce smutty wheat even though it is seeded early in the season; but the late seeding is more likely to be smutty.

The dust treatment is recommended for the prevention of smut for the reeason that it is cheap and effective. From two to four ounces of copper carbonate per bushel of seed will control the smut. The amount necessary to be used will depend on the method of mixing the dust with the seed. If an air tight container is used to agitate the dust and seed together two ounces per bushel is sufficient.

Why grow smutty wheat.

ROLL CALL ON RED CROSS ON SATURDAY P. M.

ROTARY CLUB TOLD OF THE PLANS FOR COUNTY.

Rev. L. R. Hudson and Mrs. W. H. Stroud Lead the Roll Call—Money for Nurse is Sought.

Discussion of the Red Cross Roll Call this week occupied the attention of the Rotary Club at the luncheon Tuesday. The program was in charge of Albert Terry of the Classification Committee. Dr. D. M. Stewart, chairman of the Randall County Red Cross Chapter, told of the activities of the local chapter in securing the services of nurse to examine the school children. Not sufficient money was raised last year for a nurse, and the amount was saved, and will be added to this year in the Roll Call, hoping that sufficient funds will be raised to secure a nurse. Dr. Stewart told how the physicians and dentists had donated their time to work with the nurse, and how many cases were discovered among the children which could be corrected, saving the child from permanent disability. The educational program has greatly improved the health of the county, stated Dr. Stewart.

Rev. L. R. Hudson, co-leader in the Roll Call with Mrs. W. H. Stroud, told of the Red Cross work in general. It is administered at a cost of only 2 percent, which is an eviable record of efficiency. The Red Cross is one of the strong agencies of the nation, just as it church, and its needs are ever-present. The organization gives to the needy and suffering about 16 millions of dollars annually, and every penny counts for good.

The Roll Call will be conducted in Canyon Saturday afternoon from 1:30 to 3:00. Not less than $300 is expected to be received in the Roll Call, and if this amount is secured, it will assure the services of a trained nurse to work with the school children for three months.

H. C. Pipkin and Males Madden of Amarillo made short talks. Mr. Pipkin, past president of the Amarillo Rotary Club, highly praised the work being done in the Canyon Club and the wonderful development which had taken place in the club during the past few months.

Rains of Past Week Amount to 1.15 Inches Here

Rain amounting to 1.15 inches fell from Friday until Monday.

The first rain Friday morning amounted to .35 of an inch; the one Sunday night amounted to .50 of an inch, followed by another on Monday of .30.

The rain was very general over the Panhandle, although varying in amounts. The south part of Randall county did not receive as much rain as the north part.

Farmers from every section report that wheat planting has started, with most of the farmers taking precaution to treat the seed for smut before being planted.

Warning has been issued that unless wheat is treated, the late planting in the cold ground will likely raise a big crop of smut next year.

Wheat Acreage Will Be Slightly Under That of Last Year

Randall county will have a small percent less wheat acreage next year than for this year was the statement Tuesday of County Agent W. H. Upchurch. The long dry spell this fall is responsible for this reduction rather than the prevailing low price.

Some of the wheat which was sown early died on account of the dry weather; some did not come up until the present rains fell. Since the general rains have fallen, there will be a rush to put in wheat. Wheat raisers believe that there is plenty of time, but the general warning has been issued by experienced wheat growers that unless the late planted wheat is treated for smut, there will be much smut next year. The late planted wheat in cold ground is more apt to develop smut than the wheat which is planted early.

The reduction in wheat acreage comes largely from the fact that a great amount of sod was broken out last year and planted to wheat and the dry wheather this fall prevented any sod breaking, and also stopped much plowing that would have been done under ordinary circumstances.

Attorney General James Allred has filed anti-trust suits against the major oil companies operating in the state. Those interested in oil claim that the suits are filed with prejudice and malice against the companies and more for political reasons than any other. The attorney general's department has been the stepping stone of a good many politicians in the past, and this suit is charged against the present aggressive young attorney general as one which he hopes will reinvest in his political glory. The oil business like all others has been hard pressed during the past years. It pays 62 per cent of all the state's tax bills. It has been regulated at the point of the bayonet. That the industry should be threatened with expensive court proceedings is regretted by those which know its trials and tribulations. However, the attorney general says that the big companies are law breakers, and must be punished for their acts. If they are guilty, he will have no trouble in the prosecution; as it is not hard to prosecute big business or corporations who have evaded the law. The public will watch with interest the developments of the cases, as these will be the first big anti-trust cases tried in Texas for a number of years.

Most people feel, perhaps, that they have about enough to look after their own welfare during these trying times. However, there is one organization which is doing a great work, and needs the support of every citizen. This is the Red Cross. If the roll call in Randall county this year is a success, a nurse will be put in the public schools of the county to direct the children in the proper care of their bodies. Inspections will be made of the children which will prove invaluable in the years to come and will save the parents many dollars as physical defects are located and corrected. When the solicitors wait on you, answer the roll call. The money will be well invested.

A tax survey committee is now conducting hearings at Austin. The result of the work of this committee will be interesting to the public. The committee has a great opportunity, if it will attempt to bring forth a real tax program rather than center on a few hobbies of the members, which are well known to the members of the legislature. At the same time a committee is in session investigating the departments of state with a view of reducing the number of departments, boards and bureaus. There are too many of these, and if the two committees are able to get together on a plan, they may recommend a valuable program of consolidation and elimination which will be of benefit to the tax payers.

Agriculturally Randall county has taken its place at the head of the counties of Northwest Texas. A review published in the News last week will surprise even the most ardent supporters of the agricultural program of the county. The county has been a leading dairy county for a number of years, and is now placed as the leader in wheat, poultry, hogs and other farm products. Every citizen of Randall county is proud of the achievements of our farmers during the past and will cooperate with them in keeping up their record in the future.

The big convention of the Texas State Teachers Association is scheduled for Amarillo next week. Practically every teacher of the Panhandle territory will be present, and hundreds from other sections of the state. Interesting work is under progress in their behalf by J. A. Hill president of the state association and cheerful reports are being received that would indicate a safe margin in his favor. His election would be a great compliment to the earnest and faithful work to better the conditions of the schools of Texas.

It is said that the Rev. W. J. Simmons, who made a fortune from the organization of the Klan, is now out with another scheme called the White Band. He claims that 250,000 have joined. Whereas he turned Jews and Catholics from the Klan, they are welcomed in the White Band. Perhaps he feels that they have more money than Protestants, and should therefore be easy picking. Barnum has something truthful to say about fools being born every minute.

The Panhandle Press Association will observe its 30th anniversary in the annual meeting at Amarillo next April. Plans were made Saturday at the meeting of the executive committee to hold the biggest convention in the history of the organization. Every newspaper worker in West Texas should be at that convention.

Pay your poll tax this year, so as to be armed with a vote in the elections next year. Offices will be filled, from precinct to president next year. Political rumors are already afloat, county, state and national, and every citizen should have a part in these elections.

A newspaper is usually the criterion by which a town is judged. If it's a prosperous looking sheet, the town is considered a good town. Better those people who knock the paper also knocking their town.—Harry Koch, in the Quanah Tribune-Chief.

You needn't tell me —I know Camel is the fresh cigarette!

Milder because they're *fresh*

CAMELS *are never parched or toasted!*

FOLKS who smoke really *fresh* cigarettes made from choice sun-ripened tobaccos never have to give a thought to their throats.

That's because such fresh cigarettes retain natural moisture—and are gratefully smooth, cool, throat-friendly, *mild*.

Camels are the *fresh* cigarette—everyone knows that now—they're blended from the finest Turkish and mild Domestic tobaccos that money and skill can buy.

We would never dream of parching or toasting these choice sun-ripened tobaccos—that would only drive off or destroy the natural moisture that makes Camels fresh in nature's own mild way.

The Camel Humidor Pack protects a fine cigarette *fresh* with natural moisture—it could do little or nothing to freshen a cigarette that is dried-out or factory-stale.

If you smoke for pleasure, see for yourself what freshness means in mildness and flavor—switch to Camels for just one day—then leave them, if you can!

MRS. CHAS FLESHER ENTERTAINS THURSDAY

In rooms beautifully decorated in vari-colored chrysanthemums, Mrs. Chas. Flesher was hostess to the As You Like It club with a lovely party at her home, 1100 Sixth Avenue, Thursday afternoon.

A color scheme of yellow and green was pleasingly developed in the bridge table accessories and in the delicious salad course served following the games. Flowers centered the tables at the refreshment hour.

During the business meeting plans were made for a Christmas party to be given by the club.

Club members and special guests present were: Mrs. William Ash, Mrs. Elizabeth Chandler, Mrs. John Fry, Mrs. Clyde McElroy, Mrs. N. E. McIntire, Mrs. T. M. Moore, Mrs. J. J. W. M. S. GIVES WEEK OF PRAYER PROGRAM

The Methodist Woman's Missionary Society met in the parlor of Cousins Hall Tuesday afternoon, Nov. 10, at 3 o'clock with Mrs. Marion Witt and Mrs. A. H. Hunt as hostesses for the Week of Prayer program. The offering given goes to help rebuild the decaying property of the schools in the home and foreign fields of the Woman's Missionary Council.

The devotional thought for the program, "Jesus' Challenge" was led by Mrs. C. E. Jameson. She carried out the thought of "Rise up and follow me" using Matthew 4, verses 18 to 20, as a scripture reading. Miss Mattie Mae Swisher sang "Jesus Calls Us O'er the Tumult," while Mrs. Jameson commented on the verses, showing how Jesus, walking in the street, in the home, and in the country, calls people to follow him into greater fields of service. This was followed by sketches of the lives of two who had followed into greater fields of service. Miss Belle Bennett's life was interestingly told by Mrs. C. M. Dowlen while "Kagawa, the Apostle of Love in Action" was the subject of a discussion by Mrs. Agnes Smith.

Miss Estelline Harris then sang "Sweet Hour of Prayer" accompanied at the piano by Miss Eloise Talley.

"Rebuilding the Walls through the Week of Prayer" was the theme which was very interestingly discussed in a paper on "Our Spofford Home" by Mrs. A. W. Sternenberg, giving the needs of the home field, and by the clever little play, "Mending Cracked Walls," presented by the following: Mrs. William Ash, Mrs. Clyde McElroy, Mrs. Laurence Shuman, Mrs. A. H. Bryant, Mrs. R. McGee, Mrs. C. M. Dowlen, Mrs. W. A. Pierce, Mrs. R. E. Foster, Mrs. F. M. Wilson, Mrs. Levi Cole, and Mrs. Elizabeth Fry Page. This playlet clearly revealed the terrible condition of some of the buildings in the foreign fields.

Mrs. I. C. Jenkins closed the meeting by giving an opportunity for an offering to help rebuild the walls, followed by sentence prayers from the group for the work and workers of the missionary field.

Flues And Ventilation For Gas Heaters

In the use of natural gas, as with other fuels, certain well known precautions should be taken concerning the installation and operation of appliances.

At night open gas heaters should never be left burning in a bed room. The windows should be opened and the heater turned out. Fresh air at night is most important to health, regardless of its relation to gas heaters. Some other part of the house may be kept warm, in order to provide a comfortable place in which to dress.

Living rooms should have some ventilation, and the flame in gas heaters should not be too high. Under any circumstance, don't let the flame roar and blow.

If you are unable to regulate your appliances, call our Service Department. It is kept for your convenience, in order that you may obtain the highest efficiency from the gas you purchase.

SUL ROSS LOBOES TASTE DUST OF POUNDING BUFFALO HOOFS; SCORE OF TIGHT GAME IS 7-2

FORTENBERRY AGAIN SHAGS PASS AND SHAMBLES 18 YARDS TO SCORE.

Coach "Sad" Sam Burton and his West Texas Buffaloes traveled over 400 miles by auto to Alpine to win their first T. I. A. A. conference game Saturday from the Sul Ross State Teachers College Loboes 7-2.

The Buffaloes' score came during the very beginning of the game. The Loboes kicked off to the Buffs who in return made three attempts for a first down but failed. On the fourth play Clark punted.

Sul Ross then carried the ball three times and punted. On the third play, after getting possession of the ball this time, Clark, half back for the Buffs, passed to Fortenberry, end, and the elongated lad tripped 18 yards to pass over the goal line, after shaking both Lobo half backs loose from his legs. Brotherton, playing at half, bucked the line for the extra point.

The Sul Ross score came in the third quarter, where the Buffs were forced to the one yard line. After holding the Alpine teachers for four downs, the Buffs took possession of the ball, and fearing a loss of the ball in this dangerous territory, Clark called punt formation, but instead permitted himself to be tackled, behind the line, thus giving Sul Ross two points instead of a possible six.

For five times the Buffs were forced to withstand an attack within the scoring zone, but each time the Herd's line refused to be pushed over. Each time that the Loboes carried the ball, within this zone, they were rushed for a loss. Out in the middle of the field the Alpine team could make gains thru Burton's team, but they failed in their ability to push over the line for a score.

The game was played in competition with a hard wind. In the first and last quarters the Buffs had the advantage and the other two periods were Sul Ross's. The Buffs did some of the best playing in the last quarter, and from the way the Herd was functioning then, the Loboes could have never scored, had they played on the offense the entire period.

The star player of the game goes to the center position, filled by Bill McLendon. Never before in history has Bill walloped the opponents offensive drives. Also, he played a great offensive game when the Buffs were in possession of the ball.

L. A. Stowe, playing at end, made one of the best tackles of the game. It was Sul Ross's great drive to the goal line, and they were attempting a lateral pass, when Stowe broke through the line and stopped the play before it was half completed and carried the ball possessor for a great loss.

Cooper played great during his next to the last ball game. He refused to retreat another inch, when the Loboes got within the one yard line.

Lloyd Devin, another senior who is playing his last, made history for himself in this game. He broke up several line bucks against Sul Ross.

Layne substituted for Ballengee at tackle and finished up in good style. Brotherton and Williams did most of the ball carrying for the Buffs.

Every man that played for the Buffs was functioning in grand fashion. Those getting actual service were: Fortenberry, Ballengee, Devin, McLendon, Cooper, Manning, Burk, Clark, Spence, Brotherton, Williams, Layne, Woolever, Stowe, and Duncan; and those making the trip other than those who participated in the game were: Phillips, Daugherty, Fowler, Powell, Britt, McInnis, and C. Devin.

Summary

Buffaloes: On 65 plays gained 78 yards including 18 from passes; 10 yards were lost in scrimmage. Passed two, 1 complete for the score and one incomplete. Punted 8 for average 28 yards. First downs 3. Fumbled 2, lost ball twice and recovered one. Penalties six times for total of 50 yards. Score, Fortenberry 6, Brotherton 1.

Sul Ross: On 82 plays gained 248 yards, including 51 from passes; lost 44. Passed 13 times, two complete for 51 yards, 10 incomplete and one intercepted. Punted 9 times average 26 yards. Fumbled four times, lost ball twice and recovered twice. Penalties, 10 times for ottal of 100 yards. Score, Safety, netting two points.

Billie Burke Plays in Amarillo Tuesday, Nov. 24

Hailed as the most successful show on tour today, "The Vinegar Tree," Paul Osborn's New York comedy triumph, with beautiful Billie Burke, foremost of American comediennes, in the leading role, will be presented at the Municipal Auditorium on November 24.

That the event will be one of the most popular ever staged in Amarillo is indicated by the brisk advance ticket sale. Reservations are available now, and may be obtained by writing to Miss Era Lewis, News-Globe office in Amarillo. Wilbur C. Hawk, sponsor of the event, is urging out-of-the-city theater goers to reserve their seats early as a sell-out is anticipated. The prices range from 50 cents in the rear of the balcony to $3 in the main parquet.

Miss Burke, who is the wife of Florenz Ziegfeld, who glorifies the American Girl in his annual Follies, is said to be a dazzling success in resuming her career after several years of home-making for her husband and daughter, Patricia. Some 15 years ago she was the toast of Broadway in "The Mind the Paint Girl," and critics who have seen "The Vinegar Tree" say she is just as beautiful and vivacious as she was then.

Her supporting cast is headed by Kenneth Thompson, who gained fame in motion pictures.

"The Vinegar Tree," which is strictly a comedy of Long Island society, will be in Amarillo for one performance only—Tuesday night, November 24. Order tickets now while you can get choice tickets.

FRESHMEN DROP GAME TO TECH FISH FRIDAY 40-0

GAME IS ROUGH; MORGAN, SEVERAL OTHER W. T. FISH HURT.

The West Texas State Teachers College freshman football team under the tutelage of Mitchell Jones journeyed to Lubbock Friday, November 13, only to go down in defeat at the hands of the mightier Tech Freshman gridsters.

From all reports the game was unduly rough, since two or three of the young buffaloes returned to the local range suffering from injuries.

The same two teams battled to a scoreless tie on Buffalo field here a few weeks ago. At that time it looked as if the two teams were about evenly matched, but the locals can say that it happened on Friday the thirteenth. This is the last matched game for the freshman this season, therefore, the next time we see them in action most of them will be Buffaloes.

It has been our observation that the average man kicks more from habit than he does from necessity.

Canyon Eagles Down Claude In Armistice Game

The Canyon Eagles easily won their Armistice Day game here by the score of 26-6. The Eagles had the Claude Mustangs completely outclassed.

The Mustangs' attack was opened in the last half with Capt. Blanton leading the offense. Harden, Eagle half, was the stellar player of the Canyon backfield. His line plunging and pass blocking greatly aided the Eagles for victory.

During the first quarter the Eagles ripped the Mustang line wide open and made two touchdowns in short order. Wooten made both points. The second quarter was scoreless.

Claude made their touchdown in the third quarter. It was the result of a 50 yard pass to Blanton. The Eagles pushed their third counter over after a 40 yard pass to Tucker. The last counter of the game was made when Elliston, Eagle substitution in the backfield, intercepted a pass and ran 60 yards for the counter. The Eagles failed to make the extra points on the last two touchdowns.

Claude gained 47 yards from scrimmage and 139 by passes, making a total of 186 yards gained. They lost 11 yards. They were penalized 3 times for 15 yards. The Mustang booter kicked 7 times averaging 31 yards. Out of 22 passes, 9 were incomplete, 2 intercepted and 11 good.

Canyon gained 226 yards from line plays and 63 by the air. The Eagles were penalized 5 times for 45 yards. Pearson punted 7 times, averaging 30 yards. He passed 6 times with three good and 3 knocked down.

The line-up was:

Canyon	Position	Claude
Pearson	Qoarter	Lewter
Wooten	rh	Bagwell
Harden (Capt.)	lh	Goodger
Tucker	Full	Blanton (Capt.)
J. Cox	le	J. Blaine
Walker	lt	Ransom

Substitutions: Canyon: H. Thomas for Wright; Middleton for Walker; Cochran for Cox; Bell for Miller; Wilson for Wooten; Elliston for Harden; Johnson for Tucker; Wiggins for J. Cox; G. Brasuel for Walker; F. Thomas for T. Cox; Black for F. Thomas.

The tickets are on sale at Walker's Drug Store. Any one wishing to make reservations may go there or call 23. The price is $1.00. About seventy-five or a hundred people are expected to be present. All reservations should be made by Thursday.

Rev. R. L. Hudson Gives Talk To Vocations Class

Rev. R. L. Hudson of the First Christian Church gave an interesting talk in the Vocation Class Tuesday on the hardships and the duties of the ministry.

He spoke particularly on the perils of laziness, of flattery, and of the love of money and its effect on the ministry.

He stated that lonliness is one of the major hardships in a minister's life, as he is set aside from all social functions and is not talked to in the man to man spirit as are other men.

This talk gave the class a vivid insight into the life of a minister and added to the students' knowledge of that profession.

The Domestic Art Club met on Monday. Each member of the club brought some project to work on. An interesting program was given while the work was being done.

THE SACK AND THE CAN

West Texas used to live out of the sack and the can; but it's different now. The paper sack is being gradually eliminated on the farm—and the can is a different can. West Texas Today for August quotes a Lynn County matron, who faced the drouth of 1930, as saying that she and her husband wondered what they would do with a large hospital bill which they owed. Continuing—

"Then I remembered that I had signed the 4-H pantry demonstration. My garden came in fairly well because I have a tank by which I can irrigate. I grew rhubarb, asparagus and parsnips as new vegetables. When the home demonstration agent asked me how many rhubarb plants we wanted to order we told her we wanted three times the amount for demonstration. We had only two plants, now we have 15 nice plants which we can use next year. Now with running water in my home and a new built- in cabinet and 4-H pantry, I have a living for my family and housekeeping is so much easier and we are happier in spite of strenuous times. I am canning meat for my doctor on the shares to pay part of my doctor bill."

You can't beat a spirit of that sort, even if cotton should go down to nothing at all. West Texas Today says that last year the Texas farm women canned nearly three million quarts of food, valued at more than a million dollars, and West Texas is credited with approximately half of the amount. Home canning means something this year.—Dallas News.

S. Council Plan Programs For Coming Chapels

President D. B. Pearson called a meeting of the Student Council Monday for the purpose of planning chapel programs for the remainder of the year.

The Council plans to have each club and organization in school present a program sometime during the year. It requests that each club have its members instead of a speaker on its program. It intends, however, to have a number of speakers from town and the College on before school is out.

A very interesting course of programs were mapped out for the year, but that course is subject to change any time that it is seen necessary to do so.

Ruth Cox Wins Football Queen Contest in C.H.S.

Ruth Cox became football queen Tuesday when the seniors defeated the other classes in the football queen contest. The junior class ranked second with Mignon Greer as the candidate; the freshmen third, with Mary Mae Harrison; and the sophomores fourth, with Arma Lee Greenfield.

The three defeated candidates were the attendants of the Queen in the high school float, which won first prize in the Armistice Day parade.

GIRLS' BASKETBALL.

The girls who intend to play basketball started practice last Monday under the coaching of Mr. McDonald and Miss Smith.

The practice period is from 3:00 to 5:00. An unusual characteristic of this year's team is that no seniors and only a few juniors are trying out.

The girls are working very hard, and it seems assured that the basketball team of '32 will be able to keep the record that the other basketball girls have made in the past.

Extending a helping hand is commendable, but a hand with something in it is more practical.

Is the Modern woman going Antique?

YES, the girls wear Empress Eugenie hats—but that seems to be the only noticeable tendency that the modern woman is going antique.

Isn't it rather hard to imagine yourself tearing down the street in an old surrey, say at 3 miles an hour? Picture, if you can, a modern woman reading a true story by the light of a kerosene lamp.

No, you wouldn't want to live like they used to.

Perhaps one of the things you would miss most would be the telephone. Wonder what Grandma did when these things happened: pouring down rain, and not a grocery in the house; no way to order quickly . . . friends, haven't seen them for days; no way to reach them . . . noise in the basement; burglars, maybe! . . . no telephone book with the names of friends, relatives, business houses . . . relatives in a distant city; are they well? . . . a child's face, pale against a pillow; a doctor, quick!

It *is* hard to do without a telephone. Why should you, when the service costs so little?

Dr. Hill Dedicates New Channing High School Building

President Hill delivered the dedicatory address at the opening of Channing's new high school building Wednesday afternoon, November 11. There were a great many speakers, two of whom were Gene Howe and Representative A. C. Johnson.

Channing celebrated Armistice Day, the dedication of the new $50,000 building, and the homecoming, teachers, and old-timers. Many of the visitors had attended Channing schools as long ago as 25 or 30 years. The celebration was an all-day affair, with a basket dinner served at noon.

Channing is just recovering from serious damage done by a fire about three months ago. Dr. Hill says, "The people of Channing have a splendid building and are justly proud of it. Apparently the schools are now in good shape."

College Band Has Fifty Members Now

One of the most popular organizations of the college is the W. T. Band, which is conducted by C. E. Strain. This organization has about 50 members altogether. Full instrumentation includes 28 pieces. The band now has a membership of 24, but there are uniforms for 28. The auxiliary band has about 20 pieces, the training school band fourteen, and then there is a small grade school band.

The college maintains three major musical organizations, chorus, orchestra and band. Membership is not confined wholly to college students, but is extended also to those people of the community who are musicians capable of handling the music played by the college band. Any one having sufficient experience and ability is invited to fill any of the vacancies.

Mr. C. E. Strain, director of the band says: "It is the hope of the band and me that we may have a well trained band, and be prepared to meet any emergency that may arise."

The personnel of the band is as follows: clarinets, Reece Hough, Fern Landers, Ashley Little, and John Aldridge; saxophones, Neomi McManis, Noel Gollehon, and Carl Killebrew; cornets, Charles Strain, Woodrow Ireland, Malcolm Hunt, L. E. Thomas, and J. W. Cole; horns, Martha Strain, Nancy Strain, Grace Mateer, and Marion Higdon; trombones, William Strain, Joe Boy Hill, and Henry Whitley; bass horns, Robert Newton and Bill Chambers; baritone, Ray Robbins; and drums, V. L. Cook and Josephine Duflot.

The band has always taken part in various activities where music was needed. This year it has played in assembly, for football games, at Amarillo during the Tri-State Fair, and it led the parade on Armistice Day here.

Eighteen Students From Texline Visit College Saturday

Through mile after mile of mud came eighteen high school students from Texline Saturday to inspect the plant of W. T. The seventeen girls and one boy, accompanied by Margaret Camp, and ex-student of W. T., and C. Romis, driver, arose at 6 a. m. and started their long grind in a school bus. They started early so as to get here in time for assembly, but the mud so delayed them that they did not get here until 2:00 p. m.

The main object of the trip was to inspect the library. Miss Camp, '30, teaches English in the Texline schools, conducting also a class in library science, and she thought her students would learn much in the way of care of books and other phases of library work. Each student bore his share of the expenses of the trip.

Mrs. Geraldine Green, Dean of Women, took charge of the group and did her best to show them true West Texas hospitality. Luncheon in the cafeteria had been planned, but they arrived too late; instead, Mrs. Green took them to the Palace Hotel. Inspection of the library, a visit to the museum, and dinner at Mrs. R. B. Robbins' home followed in rapid-fire order. After that the group was taken to the show by GsrMen er.Jwk'ywl2 show by Mrs. Green. W. J. Wooten, owner of the theater, had offered to admit them free to the matinee, but it was impossible for them to attend in the afternoon. Mr. Wooten, however, admitted them for half price to the evening performance. After the show Mary Moss Richardson entertained them with an apple party. The girls spent the night at Randall Hall, while the boys stayed at Mrs. Lee Bull's.

Sunday morning each visitor went to the Sunday school of his choice, thirteen attending at the Methodist and seven at the Baptist church. After Sunday school the whole group, accompanied by Mrs. Green, went to hear Bishop Seaman at the Episcopal church. After dinner again at Mrs. Robbins' they turned homeward.

They seemed delighted with their trip, leaving the following note as evidence of their satisfaction:

"We wish to thank the West Texas State Teachers College and the people of Canyon for the courtesies shown us during our visit here. We wish to thank especially Miss Tennessee Malone and Miss Gretchen Howell for showing us through the college and high school libraries; Mrs. Robbins for the home-cooked meals; Mr. Wooten and the Olympic Theater for the movie courtesy; Miss Moss Richardson for the apple party after the show; Mrs. Smith and Randall Hall for their hospitality; the churches for their friendliness; and Mrs. Geraldine Green for the lunch and numerous other courtesies." The note was signed by Bessie Nell Brummett, Lucile Poole, Eloise Poole, Martha Jet Miller, Maurine Starnes, Martha Evans, Ida Moore, Margaret Moore, Winifred White, Mildred Lantz, Richie Fern Smith, Thelma Walker, Frances Nord, Cecil Bateman, Eleanor Hudson, Evelyn Green, Aline Parks, Gladys Baer, Clifford Romine, and Margaret Camp.

Dr Sturtevant to Speak at Chapel Next Wednesday

The people of Canyon are especially invited to attend an assembly at the College next Wednesday morning at eleven o'clock when Professor Sarah Sturtevant of Columbia University will deliver an address. Professor Sturtevant is coming to Texas as one of the outstanding speakers on the program of the State Teachers Association and the college has made a special effort to secure her for two talks in Canyon.

For her subject at the meeting Wednesday morning Professor Sturtevant will talk on "Values."

Wednesday afternoon at three, in the auditorium of the Education Building, Professor Sturtevant will speak to the members of the branches of the American Association of University Women of Pampa, Amarillo, Panhandle, Lubbock, and Plainview, to the club women of Amarillo, and to all the women of Canyon. It is hoped that there will be a large attendance at this meeting for Professor Sturtevant is one of the best known personnel workers in the United States. She has probably trained more deans of women than any other one person. Her talk in the afternoon will be upon "The Present Status of Deans of Women." The talk will be of general interest to all women.

The address will be followed by an informal tea to which all who come are invited. This courtesy is extended the Canyon women and the visitors by the local A. A. U. W. of which Mrs. T. B. McCarter is president.

Faustin Wirkus, sergeant of the United States Marines who was crowned king of the tropical island of La Gonava by natives who believed that he was a long-dead king returned to them, will give an illustrated lecture of his romantic experiences in his voodoo kingdom. Sergeant Wirkus' lecture is unique, as few white men have ever witnessed the rites and ceremonials of voodooism of which he procured moving pictures.

Musical numbers are scheduled for every session of the general convention. The Thanksgiving song service will be under the direction of Fred Douglas of Amarillo. Furnishing music for the various meetings are the Amarillo High School Chorus, West Texas State Teachers College Orchestra, Texas All-State High School Band under the direction of Oscar Wise, Texas Technological College Band, and Simmons University Cowboy Band.
